

Please cut out, fold and glue together our special prayer bookmark. You can use this to guide your prayers for the work in Burkina Faso and Northern Argentina as we work together over the coming three years to make a real change in these places.

LOVING LORD,

We thank you for raising up leaders in remote communities in Northern Argentina, even when the world might forget them. Please equip and strengthen Jorge, Luis and their fellow students as they seek to follow you and help others to know you better.

Protect them as they travel, sustain their families while students are away and help the students to support one another.

Loving Lord,

We thank you that you promise to bless the work of our hands.

May you bless the women in Burkina Faso as they work to produce biochar. May it produce good income and help them feed and care for their families. May they experience hope and peace even in the midst of the internal war.

Loving Lord,

We thank you that we are part of your church with others near and far. Help us to remember, support and pray for our brothers and sisters in Northern Argentina and Burkina Faso.

We thank you that you are at work there just as you are here – help us to see the life that you bring.

In the name of Jesus,

AMEN.

A Harvest of Justice and Peace

A generous gift to our harvest appeal will help to provide training for vulnerable women enabling them to gain an income to help them provide and care for their families in Burkina Faso. Your support will also pave a way for a new generation of Deacons to be trained and serve in the Diocese of Northern Argentina.

Over the next three years, the Bishop's Harvest Appeal will be supporting the work of Christian Aid in Burkina Faso and Church Mission Society in Northern Argentina. You'll have the opportunity to follow their exciting work and see the difference your generosity is making across the world.
